WHY ALPINE

Mountain modern built for the long haul.

Alpine is the most well-known plan in the lineup — featured on pilot Trent Palmer's YouTube channel, where it earned its reputation as the mountain modern build that actually performs in the high country. Master suite separated from the secondary bedrooms, breezeway-connected garage for clean lines, and dual front and rear decks for indoor-outdoor flow. Engineered for snow loads up to 250 PSF.

STANDARD ELEVATIONS

Mixed dark vertical wood + warm cedar · black metal roof

WOOD OR STEEL

Zip Kit builds in panelized wood and in Zip Kit Steel light-gauge framing. Which suits your site depends on span, fire and seismic requirements, and local code. **Ask your sales rep for the wood vs steel sheet.**

ALPINE · PANELIZED SHELL KIT

Floor Plan

Single-level mountain modern at 2,372 sqft livable + 951 sqft detached 3-car garage. Master suite separated from secondary bedrooms, dual front and rear decks (28'-8" × 11'-4" each), breezeway-connected garage with mudroom.

MAIN LEVEL FLOOR PLAN

3–4 Bed · 3 Bath · Detached 3-Car Garage

Single-level mountain modern. Master suite anchors the right wing with private bath; three secondary bedrooms share two full baths. Open kitchen-dining-living opens to dual decks front and rear. Detached 3-car garage links via covered breezeway with mudroom.

THIS IS WHAT YOU GET

The panelized shell as delivered and set

Walls framed and standing, ZIP System sheathing taped and sealed, roof on and dried in. This is the point your kit reaches — everything past it is yours to finish or ours to quote separately.

Windows and doors shown are an optional add-on — supplied and installed with the kit, priced separately.

WHAT'S IN THE KIT

PANELIZED SHELL PACKAGE

- Pre-framed exterior wall panels
- Pre-framed interior wall panels
- ZIP System sheathing + tape — integrated weather barrier
- Pre-framed stairs & structural components
- Pre-cut structural beams and posts
- Roof panels or engineered trusses
- Lumber to finish trusses & roofing (sheathing, blocking, subfascia)
- Synthetic roof underlayment

OPTIONAL — ON-SITE ASSEMBLY

Panel set, framing completion and roof dry-in labor are available as a separately quoted service, independent of the kit purchase. Scope, availability and pricing vary by location.

ENGINEERING PACKAGE

Detailed floor plans
Designed by builders to reduce waste and simplify the construction process.

Structural engineering
Engineered for your specific location — snow loads, seismic zone, frost depth, wind.

Res-check energy submittal
Energy compliance documentation as required by your local building department.

Site plan
Specific to your lot. Geotechnical and soils engineering not included.

FREIGHT — QUOTED PER PROJECT

Freight is quoted per project from Cedar City rather than charged at a flat per-mile rate. Cost depends on destination, route, and how many loads the kit requires. Your sales rep can provide a delivered number alongside your quote.

WINDOWS & DOORS UPGRADES

Quoted per project · standard entry doors included

1 VINYL · SINGLE FINISH	2 VINYL · TWO-TONE	3 PREMIUM VINYL	4 FIBREX COMPOSITE
Cascade WinPro Vinyl	**Cascade WinPro Vinyl**	**Amsco Studios**	**Andersen 100 Series**
Clay or White	Black Ext / White Int	Step-up series	Composite upgrade
Low-maintenance vinyl with energy-efficient dual-pane glass. All-clay or all-white.	Same durable vinyl in a two-tone finish for modern exterior contrast.	Refined profiles and enhanced thermal performance over standard vinyl.	2× stronger and 12× thicker finish than painted vinyl. White interior at reduced cost.
Quoted	Quoted	Quoted	Quoted

Window packages are quoted with the project — shipping, handling and installation vary by destination. Upgrades to size, style, color, brand, or configuration will result in additional charges. All customizations must be approved before engineering begins.
