WHY APACHE

Drive-in shop below. Full apartment above.

Apache opens a new product category for Zip Kit: panelized barndominiums. Dark vertical metal siding paired with warm cedar accents and a standing-seam gable roof give it the modern barn aesthetic — built to live in, not just store equipment. The 1,140 sqft drive-in shop handles trucks, trailers, and trade-shop work; the upper-level apartment delivers a real bedroom, bath, and kitchen plus an art studio loft. Built for tradespeople, makers, weekend property owners, and anyone who needs a workshop and a place to live in one structure.

WOOD OR STEEL

Zip Kit builds in panelized wood and in Zip Kit Steel light-gauge framing. Which suits your site depends on span, fire and seismic requirements, and local code. **Ask your sales rep for the wood vs steel sheet.**

Floor Plans

Upper level apartment: bedroom, J&J bath, vestibule, open living, art studio, and kitchen. Lower level shop: clear-span 40' × 26' floor with two 10' × 10' overhead doors, bath, storage, and mechanical.

FLOOR PLANS · UPPER + LOWER

1 Bed · 1 Bath · Shop + Apartment · 40' × 26'

Upper level apartment: bedroom + closet + bath + vestibule + open living + art studio + kitchen + stairwell. Lower level shop: clear-span 40' × 26' shop floor with two 10' × 10' overhead doors + bath + storage + storage/mech + interior stairs + covered exterior area.

THIS IS WHAT YOU GET

The panelized shell as delivered and set

Walls framed and standing, ZIP System sheathing taped and sealed, roof on and dried in. This is the point your kit reaches — everything past it is yours to finish or ours to quote separately.

Windows and doors shown are an optional add-on — supplied and installed with the kit, priced separately.

Added cost — up to 250 PSF snow load	+ \$18,650
Freight — nationwide shipping from Cedar City, UT	Quoted per project
On-site assembly — panel set, framing & roof dry-in labor (optional)	Quoted per project

WHAT'S IN THE KIT

PANELIZED SHELL PACKAGE
- Pre-framed exterior wall panels - Pre-framed interior wall panels - ZIP System sheathing + tape — integrated weather barrier - Pre-framed stairs & structural components - Pre-cut structural beams and posts - Roof panels or engineered trusses - Lumber to finish trusses & roofing (sheathing, blocking, subfascia) - Synthetic roof underlayment
OPTIONAL — ON-SITE ASSEMBLY
Panel set, framing completion and roof dry-in labor are available as a separately quoted service, independent of the kit purchase. Scope, availability and pricing vary by location.

ENGINEERING PACKAGE

Detailed floor plans
Designed by builders to reduce waste and simplify the construction process.
Structural engineering
Engineered for your specific location — snow loads, seismic zone, frost depth, wind.
Res-check energy submittal
Energy compliance documentation as required by your local building department.
Site plan
Specific to your lot. Geotechnical and soils engineering not included.

FREIGHT — QUOTED PER PROJECT
Freight is quoted per project from Cedar City rather than charged at a flat per-mile rate. Cost depends on destination, route, and how many loads the kit requires. Your sales rep can provide a delivered number alongside your quote.

WINDOWS & DOORS UPGRADES

Quoted per project · standard entry doors included

1 VINYL · SINGLE FINISH	2 VINYL · TWO-TONE	3 PREMIUM VINYL	4 FIBREX COMPOSITE
Cascade WinPro Vinyl	Cascade WinPro Vinyl	Amsco Studios	Andersen 100 Series
Clay or White	Black Ext / White Int	Step-up series	Composite upgrade
Low-maintenance vinyl with energy-efficient dual-pane glass. All-clay or all-white.	Same durable vinyl in a two-tone finish for modern exterior contrast.	Refined profiles and enhanced thermal performance over standard vinyl.	2× stronger and 12× thicker finish than painted vinyl. White interior at reduced cost.
Quoted	Quoted	Quoted	Quoted

Window packages are quoted with the project — shipping, handling and installation vary by destination. Upgrades to size, style, color, brand, or configuration will result in additional charges. All customizations must be approved before engineering begins.
