WHY OLYMPIC

**The largest shell in the lineup,
with dual primary suites.**

Olympic is the largest panelized shell in the lineup — 3,516 sqft livable on a 62' × 46' footprint, and the only model that ships with dual primary suites. One sits on the main level with a walk-in closet and full bath for accessibility and aging in place; a second sits upstairs with its own primary bath and walk-in closet for privacy. Three secondary bedrooms, six total bathrooms, an upper family room opening to a covered deck, an attached 2-car garage, and a covered main-level patio off the open kitchen. Built for large families, multi-generational households, and buyers who host often.

ALL ELEVATIONS

WOOD OR STEEL

Zip Kit builds in panelized wood and in Zip Kit Steel light-gauge framing. Which suits your site depends on span, fire and seismic requirements, and local code. **Ask your sales rep for the wood vs steel sheet.**

Floor Plans

Two-story modern on a 62' x 46' main footprint with dual primary suites — one on the main level for accessibility, a second upstairs for privacy. Three secondary bedrooms, six total bathrooms, an upper family room with covered deck, an attached 2-car garage, and a covered main-level patio.

FLOOR PLANS · MAIN + UPPER

5 Bed · 6 Bath · 62' x 46' main · 2-Car Garage · dual primary suites

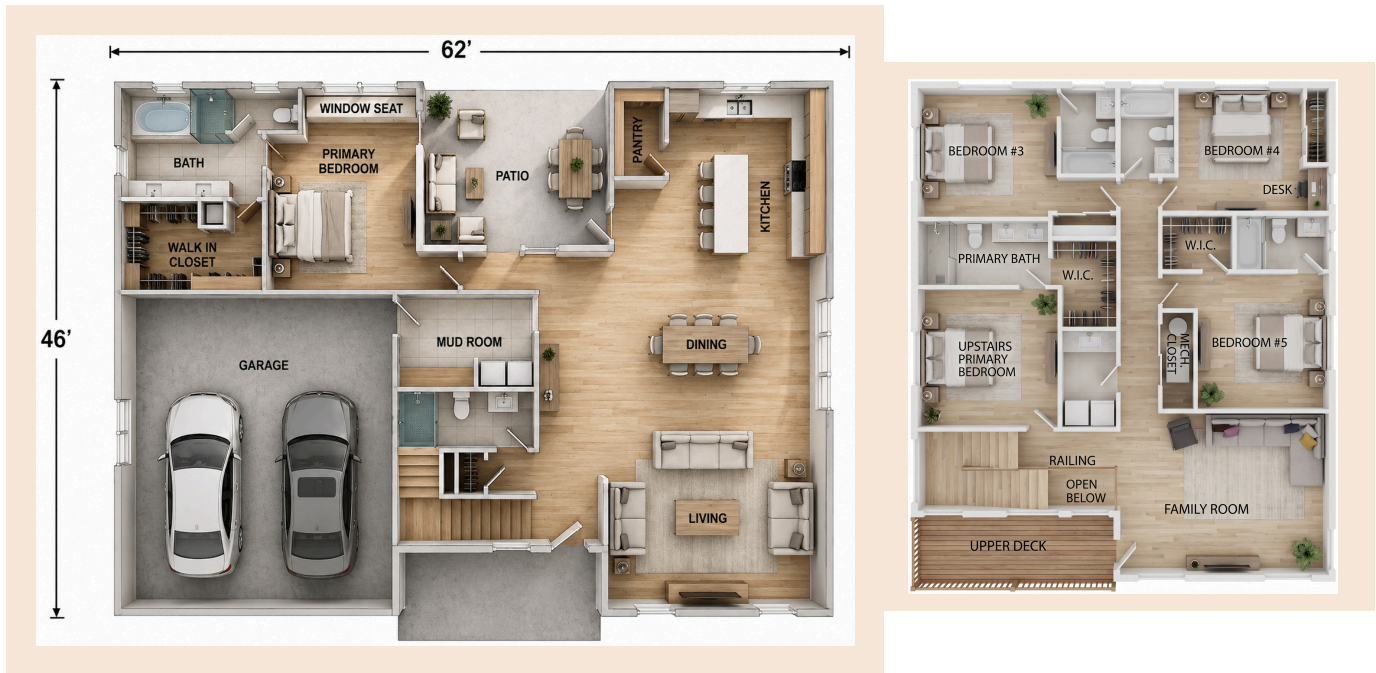

Main level: primary bedroom with window seat, walk-in closet, and full bath; open kitchen with pantry, dining, and living; covered patio off the kitchen; mud room with bath; stairs up; and the attached 2-car garage. Upper level: upstairs primary bedroom with primary bath and W.I.C.; Bedroom 3, Bedroom 4 with desk, and Bedroom 5; a second W.I.C. and bath; mech closet; family room open to below; and the upper deck.

MAIN LEVEL

Primary suite · living · garage

UPPER LEVEL

Second primary · three bedrooms · family room

THIS IS WHAT YOU GET

The panelized shell as delivered and set

Walls framed and standing, ZIP System sheathing taped and sealed, roof on and dried in. This is the point your kit reaches — everything past it is yours to finish or ours to quote separately.

Windows and doors shown are an optional add-on — supplied and installed with the kit, priced separately.

Added cost — up to 250 PSF snow load	+ \$28,965
Freight — nationwide shipping from Cedar City, UT	Quoted per project
On-site assembly — panel set, framing & roof dry-in labor (optional)	Quoted per project

WHAT'S IN THE KIT

PANELIZED SHELL PACKAGE

- Pre-framed exterior wall panels
- Pre-framed interior wall panels
- ZIP System sheathing + tape — integrated weather barrier
- Pre-framed stairs & structural components
- Pre-cut structural beams and posts
- Roof panels or engineered trusses
- Lumber to finish trusses & roofing (sheathing, blocking, subfascia)
- Synthetic roof underlayment

OPTIONAL — ON-SITE ASSEMBLY

Panel set, framing completion and roof dry-in labor are available as a separately quoted service, independent of the kit purchase. Scope, availability and pricing vary by location.

ENGINEERING PACKAGE

Detailed floor plans

Designed by builders to reduce waste and simplify the construction process.

Structural engineering

Engineered for your specific location — snow loads, seismic zone, frost depth, wind.

Res-check energy submittal

Energy compliance documentation as required by your local building department.

Site plan

Specific to your lot. Geotechnical and soils engineering not included.

FREIGHT — QUOTED PER PROJECT

Freight is quoted per project from Cedar City rather than charged at a flat per-mile rate. Cost depends on destination, route, and how many loads the kit requires. Your sales rep can provide a delivered number alongside your quote.

WINDOWS & DOORS UPGRADES

Quoted per project · standard entry doors included

1 VINYL · SINGLE FINISH	2 VINYL · TWO-TONE	3 PREMIUM VINYL	4 FIBREX COMPOSITE
Cascade WinPro Vinyl	Cascade WinPro Vinyl	Amsco Studios	Andersen 100 Series
Clay or White	Black Ext / White Int	Step-up series	Composite upgrade
Low-maintenance vinyl with energy-efficient dual-pane glass. All-clay or all-white.	Same durable vinyl in a two-tone finish for modern exterior contrast.	Refined profiles and enhanced thermal performance over standard vinyl.	2× stronger and 12× thicker finish than painted vinyl. White interior at reduced cost.
Quoted	Quoted	Quoted	Quoted

Window packages are quoted with the project — shipping, handling and installation vary by destination. Upgrades to size, style, color, brand, or configuration will result in additional charges. All customizations must be approved before engineering begins.
